FUEL YOUR CAREER WITH SAP BUSINESS ALL-IN-ONE
LEARN SAP R/3 THE AFFORDABLE WAY

SAP BUSINESS ALL-IN-ONE APPLICATION ASSOCIATE ABAP

This course is intended for participants currently exploring how to develop programs in ABAP/4. It also focuses on basic ABAP/4 development tools (e.g. ABAP Dictionary, ABAP Workbench, SQL Programming) and how to use them to develop their own business applications and to enhance the standard SAP software to meet specific customer requirements.
The course is equipped with technical presentations to provide background concepts as well as case studies and hands-on exercises for easier understanding and appreciation of the entire course.

It will also emphasize the advantages of the client/server architecture for programming, performance issues, procedures and special features of development projects.
